Designed in 2024 by Dmitry Kozachyshyn. With its precise proportions, thoughtful ergonomics, and armrests formed directly from the frame, the MINGLE chair excels at a dining or meeting table, desk, or dressing table. Its balanced form fits to a wide range of interior schemes while giving the space a distinct character.

Crafted through an extensive prototyping process, each chair reflects exceptional attention to detail. The Mingle Chair is made to order and can be finished in a curated selection of metals, textiles and leathers, or in materials personally chosen by the client to complement the design.
