Designed in 2025 by Dmitry Kozachyshyn. The fully upholstered version of the TWAIN chair provides maximum comfort through its soft upholstery. The chair is offered in single-tone or two-tone finishes, combining frame and upholstery colors. The design features a clean and classic silhouette, while the upholstery adds tactility to the seating experience.

The chair is made of galvanized steel with a powder coating, making it durable in outdoor conditions, while the waterproof fabric upholstery ensures comfort and easy maintenance. Combining color versatility and weather-resistant materials, the fully upholstered TWAIN chair works seamlessly in a wide variety of outdoor spaces.
